## 12.2. Zone Defence (Primary Tournament)

As there is general acceptance that the consistent use of zone defences in the younger age groups adversely effects the development of both defensive and offensive skills in younger athletes the use of a zone defence is banned.

### a) Definition

Any defence played in the half court which does not incorporate normal man-to-man defensive principles shall be considered to be a zone. For this purpose trapping defences which rotate back to man –to-man defensive principles shall be acceptable.

### b) Violations of Man-to-Man Defence

The use of man-to-man defence is integral to all competitions run by Basketball NSW. Therefore, when observing games, observers should be concerned about determining players or teams who are not executing acceptable man-to-man defensive principles.

Specifically violations fall into one of the four categories listed below:

- i. One or more player(s) was/were not in an acceptable man-to-man defensive position in relation to their man and the ball.
- ii. A cutter moved all the way through the key and was not defended using acceptable man-to-man defensive techniques – for example, bumped, switched or followed.
- iii. Following a trapping or help and recover situation, the team made no attempt to re-establish man-to-man defensive positioning.
- iv. The team zone pressed and did not assume man-to-man defensive positioning once the ball had been advanced into the quarter court.

### c) Notes for observers – in any judgement

- i. Take into account the intention of the defensive team.
- ii. Take into account the time and the state of the game.
- iii. Deliberate and pre-meditated use of zone defence at a critical time in a game should be acted upon immediately.
- iv. Where there is any doubt, the benefit of doubt must be given to the defence, i.e., be sure of the violation.
- v. If a zone is in effect, observer must warn the head coach and call an officials time out to allow the coach to notify their players.

### d) Who can enforce penalties for playing zones?

Neutral observer(s) who are qualified to determine whether or not a zone is in place.

### e) Implementing Penalty

- i. Warning.
- ii. 1st Violation – if a coach is found to be using a zone defence after the warning, the Court Supervisor or Basketball NSW representative, they are to approach the Scoretable Chairman for an official's time-out to stop the game.

The referees are then informed that a violation of the NO ZONE RULE has been detected.

The offending coach is then informed and subsequently charged with a Technical Foul.

- iii. 2nd Violation – if a coach is found to be using a zone defence for the second time during a game, the Court Supervisor or Basketball NSW representative is to approach the Scoretable Chairman for an official's time-out to stop the game.

The referees are then informed that a second violation of the NO ZONE RULE has been detected.

- iv. The offending coach is then informed and subsequently charged with a second and disqualifying Technical Foul and will be required to leave the playing area.
