

The TIME/VISUALS OPERATOR - is responsible for the accurate operation of the game clock, entering correct scores and team fouls for each quarter and used time outs for each half. The priority is always the timing of each quarter. Every other detail entered is secondary to the operation of the clock.

- Sound the siren at 3 minutes and again at 1 minute 30 seconds on the clock before the 1st and 3rd quarters.
- Sound the siren when 30 seconds is remaining on the clock before the 2nd and 4th quarters.
- Immediately set the game time when the warm up period and intervals of play have expired.
- Immediately set the interval of play period when the quarter time period has expired.

Team A on the scoresheet will be shown as LIGHT or TEAM A on the scoreboard. Team B on the scoresheet will be shown as DARK or TEAM B on the scoreboard.

The Game Clock will start

- In the Jump to commence the game when the ball is legally tapped.
- From out of bounds when the ball touches a player on the court
- A missed free throw when the ball first touches a player on the court

The Game Clock will stop

- When the whistle is blown by the referee
- When a basket is scored and the team with inbound possession has requested a time out
- When a successful basket has been scored in the last 2 minutes of the fourth quarter and any overtime.

Team Fouls will be entered for each infraction reported by the Referee up to and including the 5th team foul (bonus situation). Team fouls are not reset if there is overtime [OT].

Wait for the Scorer to call the score or the number of team fouls and call back to them as a verbal confirmation that the display matches the information given from the Scoresheet. These verbal communications will be witnessed by the Chairperson and any discrepancies will be detected immediately so that they may be corrected.

Time Outs may be requested by either coach. Once the Referee has indicated that the Time out has been granted it is the responsibility of the Time/Visuals operator to time the 1 minute period informing the Referee by way of the siren once 50 seconds has elapsed. A separate timing device must be used for time outs. Do not use the game clock or the 24.

PLEASE NOTE: That for games that are of 10 minute quarter in duration 3 time-outs are permitted during the second half with a maximum of two of these time-outs in the last 2 minutes of the fourth quarter. Should a team not be granted it's first time-out before the last 2 minutes of the fourth quarter, the scorer shall mark 2 horizontal lines in the first box for the team's second half.

The 24 SECOND OPERATOR - is responsible for the operation of the 24 second device. The 24 second operator must be very attentive and have their fingers near the switch/buttons whilst the clock is running. On an unsuccessful shot the device must be stopped the instant the ball touches the ring and reset once a team gains possession.

Resetting the shot clock

- Whenever a team gains control of a live ball on the playing court

Stopping and resetting the shot clock

- When the referee blows the whistle for a foul, violation or a jumpball resulting in a change of possession
- When an unsuccessful shot for a field goal hits the ring or the ball lodged between the ring and backboard
- When a shot for goal enters the basket
- When the game is stopped because of the actions of an opponent of the team in control of the ball

Stopping and holding the shot clock (not reset)

When the same team that previously had control is awarded a throw in

- After the ball goes out of bounds
- When a jump ball is called
- Following a double foul
- After a game stoppage due to the team in control
- A cancelation of equal penalties
- Following a technical foul awarded to the team in control

In U14 Division 1, the shotclock will commence when both the player and the ball have entered the front court.

The shot clock will be stopped and switched off when there are fewer that 24 seconds remaining on the game clock in any period.

If the device sounds in error, the game continues. Reset the 24 Second clock immediately and start it when a team has control of the ball on the court.

The team that does not gain control of the live ball on the playing court after the Jump Ball is entitled to the first alternating possession and the arrow shall point towards their basket in the direction of play in which they are running.

At the end of the second quarter the arrow will be changed in front of the Referees as teams exchange baskets for the second half.

The Possession Arrow is changed after the ball has been passed in following a Jump Ball situation or if the team with possession violates the out of bounds. If a foul is called before the ball is inbounded the Possession Arrow does not change.
